TRADITION THAT TRANSCENDS BORDERS

The Issei Kitchen is proud to curate a menu that celebrates the intersection of imported Japanese elements and locally sourced produce and proteins.

Horse Shoe Ranch

Every ajitama is sourced from our friends at HSR who are devoted to truly pasture-raised practices. The bright orange yolk is proof of the overall health and happiness of HSR's family of hens. "Know your farmer... then know your food."

The Field's Edge Research Farm

Alex and the homies at The Field's Edge are committed to delivering our vegetables at the peak of freshness. Together we are delighted to showcase the seasonal bounty of Lancaster

Mirror Image Farm

Experience the unmatched quality of our ramen broth, made from heritage pork bones that are carefully selected from local farms that uphold time-honored breeding practices. We honor their legacy in every bowl.
